# Asset Protection Surveys for Business

# **We Help Secure Your Business to Increase Productivity and Profitability**

- **Rampart Group offers security threat and vulnerability assessments, also known as Asset Protection Surveys to all sized businesses.**
- **Our goal is to ensure you have the very best security measures in place to safeguard your most important assets – People, Products, Property, Information, Technology, and Business Reputation.**
- **With an Asset Protection Survey, we evaluate the current level of security around and within your business, identify threats and vulnerabilities, examine past incidents and local crimes within a 1-3-mile radius of your business.**

## **Our On-Site Assessment Includes the Following:**

- ✓ **Outer perimeter parking, buildings, exterior lighting**
- ✓ **Inner perimeter doors, lobby, emergency exits, office security, shipping and receiving and executive offices**
- ✓ **Physical Security controls to include access controls, video monitoring, alarm systems and secure storage**
- ✓ **Emergency operations and procedures in the event of a business disruption -from response to recovery**
- ✓ **Information Security relating to records, documents, digital media, computers, laptops, iPads, smartphones**
- ✓ **Personnel Security related to background checks, onboarding**

## For more information and to schedule an Asset Protection Survey, contact Us Today
